Service Area description

Highways Transport and Fleet Services

Purpose of this post

To work as a team member in the preparation, design and processing of highway improvement and maintenance projects, undertaking inventory collection, processing of adoption of highways, and winter maintenance activities to given timescales, costs and specification.

Key job specific accountabilities

- To carry out activities relating to surveys, design, specification associated with highways improvement and maintenance projects and activities, undertaking inventory collection, and winter maintenance activities. Carry out duties using the computer systems and other available systems.
- To carry out surveys and produce data for input to the appropriate asset management register
- Provide basic technical advice and project advice to colleagues across the Highways and Transportation service in respect of the activities undertaken
- Planning and organising own work programme/s to meet given deadlines
- Providing advice on the application of legislation, regulation, policy and principles to both internal and external customers of the Council
- Inspecting and assessing compliance with Council policies and regulatory frameworks, and enforcing/assuring their application. Instructing parties to contracts relevant to area of work
- Inspecting and assessing compliance with contract delivery and undertaking monitoring of expenditure
- Compiling reports and information on work related issues, work programmes and Council initiatives
- Issue work and instructions to contractors and other suppliers and organise coordination of activities with own team including collection of appropriate inventory information and updating of records. Carry out the collection and analysis of inventory information as part of the asset management process.
- Assist with the organising and coordination of the work of the team
- Taking responsibility for personal safety when undertaking activities especially on site and raising aspects of health and safety in so far as the postholder's area of work impacts on

the health and safety of colleagues, parties internal and external to the Council and the general public

- To relocate to and work within other functional teams as required to deal with work demands across the Highways and Transportation service
- Produce designs, drawings, specifications, contract documents including bills of quantities in respect of relevant projects
- Contributing to effective team working
- Deal with enquiries and complaints in accordance with established protocol and produce letter and reports relevant to the issues raised
- Liaise with stakeholders and other parties both internal and external to the Council
- To maintain personal and professional development to meet the changing needs of the job, participate in appropriate training activities and encourage and support staff in their development and training
- Work within relevant professional practice/standards/guidance as defined by a framework of Council best practice and procedures, as well as legislative guidelines
- Carry out other tasks commensurate with the grade as requires by the Traffic Management Engineer

Please note annual targets will be discussed during the appraisal process
